Professional Summary

Senior Full Stack Developer with 7+ years of hands-on experience designing, developing, and deploying scalable web applications across diverse industries. Proven expertise in modern JavaScript/TypeScript frameworks (React, Next.js, Node.js), backend development with Laravel and Express, and cloud platforms like AWS and Firebase. Adept at translating complex UI/UX designs into pixel-perfect, responsive frontends, while building robust REST and GraphQL APIs, optimizing performance, and ensuring end-to-end maintainability. Collaborative, detail-oriented, and passionate about clean architecture, CI/CD, and delivering impactful digital experiences in agile environments.

Technical Skills

- **Frontend:** React, Next.js, Vue.js, TypeScript, JavaScript (ES6+), Tailwind CSS, SCSS, Bootstrap, HTML5, CSS3
- **Backend:** Node.js, Express.js, Laravel, PHP, Python (basic), RESTful APIs, GraphQL
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase Realtime DB & Firestore
- **DevOps & Cloud:** AWS (EC2, S3, Lambda), Firebase Hosting, Vercel, Netlify, cPanel
- **Tools & Workflow:** Git, GitHub/GitLab/Bitbucket, Docker, Postman, Webpack, Vite, NPM/Yarn, ESLint, Prettier
- **CMS & eCommerce:** WordPress, WooCommerce, Shopify (headless), Sanity, Strapi
- **Testing & QA:** Jest, Cypress, BrowserStack, Chrome DevTools
- **Others:** JWT/Auth0, Clerk, OAuth, Stripe API, WebSockets, Webhooks, CI/CD Pipelines

Professional Experience

Comrach S.A., Kraków, Poland
Senior Full-Stack Developer | Mar 2023 – Present
- Developed and maintained scalable full-stack applications using React, Next.js, Node.js, and PostgreSQL in cloud-native environments
- Collaborated with cross-functional product teams to deliver features that aligned with business goals and enhanced user experience
- Implemented CI/CD pipelines, containerized services using Docker, and optimized deployment workflows on AWS
- Improved application performance and reliability through code refactoring, caching strategies, and database query optimization
- Led frontend architecture enhancements, focusing on accessibility, maintainability, and component reusability with modern design systems

Salesforce, San Francisco, CA
Full-Stack Developer | Oct 2020 – Jan 2023
- Contributed to the development of internal tools and customer-facing platforms using Lightning Web Components, Node.js, and JavaScript
- Worked closely with product managers and UX teams to build responsive, secure, and user-friendly interfaces
- Integrated RESTful APIs and external services to support automation, analytics, and enterprise-level workflows
- Participated in code reviews and agile ceremonies, ensuring high-quality code delivery and continuous team alignment
- Maintained and enhanced legacy systems while progressively migrating them to modern stacks and cloud infrastructure

Brainly, Kraków, Poland
Backend & Front-end Developer | Aug 2018 – Sep 2020
- Built and optimized backend services in PHP and Node.js while contributing to scalable frontend interfaces using React
- Developed educational features and dynamic content modules that improved platform usability for students and moderators
- Ensured efficient data handling through backend refactoring and improved API response structures
- Worked in a fast-paced environment with daily deployments, version control, and continuous integration

Vega IT, Novi Sad, Serbia
Software Engineer | Mar 2016 – Jun 2018
- Designed and implemented custom web applications using Laravel, Vue.js, and MySQL for various industry clients
- Translated wireframes and prototypes into responsive interfaces with a strong focus on usability and mobile-first design
- Integrated third-party APIs and services, ensuring seamless data exchange and automation across platforms
- Participated in client meetings and requirement analysis to align technical solutions with business expectations

Education

Bachelor of Science in Computer Science
University of Belgrade – School of Electrical Engineering, Belgrade, Serbia   *Sep 2011 ~ Jun 2015*

Relevant Coursework: Software Engineering, Web Programming, Algorithms & Data Structures, Databases, Distributed Systems
